Re: Recommendation Letter for Jeff Holloway, P.Eng. (Pipeline Technologies Inc.)

To Whom It May Concern:

Tuscarora Gas Transmission Company is an interstate, natural gas transmission company, headquartered in Reno, Nevada, with US\$178 million in assets and US\$29.5 million in annual revenues. Tuscarora employed Mr. Jeff Holloway of Pipeline Technologies Inc. as Project Engineer for its \$40 million dollar pipeline expansion in from February 2001 to June 2003.

Mr. Holloway was engaged for his expertise in compression engineering and project management. The project included the installation of three natural gas compressor stations and 10.5 miles of 20-inch diameter pipeline. His primary responsibilities included:

1. development of conceptual engineering plans and associated budget and execution plan for the addition of three compressor stations,
2. procurement of major compression equipment,
3. procurement of engineering, procurement and construction services,
4. cost and schedule control, and
5. on-site construction inspection and quality assurance.

Tuscarora is pleased with the results delivered by Mr. Holloway and his project team. The project was delivered on time and under budget.

If you would like additional information about Mr. Holloway, you can telephone me at 775-834-3674.

Sincerely,

Les Cherwenuk
Director, Engineering & Operations
Tuscarora Gas Transmission Company
