Letter of Reference for Mr. Jeff Holloway

To Whom It May Concern:

It is with pleasure that I write this letter of recommendation for Jeff Holloway, P.Eng. Jeff used our project controls software solution, CostTrack , on the 2002 Tuscarora Gas Transmission Expansion, consisting of two grass root compressor stations. Jeff performed the project management and cost control functions in addition to managing all of the design.

This multi-million dollar project for which Jeff was the project manager was complex and provided several very unique challenges. Jeff used OnTrack Engineering's project controls software CostTrack hosted on our Internet Server which enabled him to effectively control the project in real time from multiple locations.

During the two years of the project's life, Jeff's extensive project execution knowledge brought us multiple ideas and suggestions for enhancements to this software. We chose to implement all his suggestions allowing us to better serve the International Engineering and Construction community.

I would not hesitate to recommend Jeff to any engineering or operating company as they would benefit, as we did, from his expert project execution knowledge on large projects and his invaluable creative input.

Yours truly,

Mike Milinusic, P.Eng., MBA
President
OnTrack Engineering Ltd.
